HipaaAtlas: The One-Stop Solution for Healthcare EDI Visibility

Built for healthcare. Designed for scale. Powered by AI.

About HipaaAtlas

Healthcare organizations deserve better than slow, fragmented and error-prone EDI systems. HipaaAtlas is the best HIPAA EDI solution built for the way modern healthcare actually operates — cloud-native, AI-powered and designed to give your team full visibility across every payer system, every transaction, every day.

HIPAAatlas

The Problem

Most healthcare organizations are still dealing with:

- Manual processes that eat up time and resources
- Poor visibility across payer transactions
- Errors that turn into costly claim denials
- Disconnected systems that never quite talk to each other
- Compliance pressure with no clear way to stay ahead
- Staying ahead of HIPAA EDI compliance tools and requirements

There is a better way.

HIPAAtlas

Here's the Better Way — HipaaAtlas

Managing healthcare transactions across disconnected systems costs time, money and accuracy.

HipaaAtlas brings it all together:

- Claims and encounters
- Enrollment and membership
- Payments and remittance
- Eligibility and claim inquiry
- End-to-end HIPAA EDI automation

Medicare. Medicaid. Marketplace. Commercial - All covered

hipaaatlas.com

Key Capabilities

From enrollment to remittance, HipaaAtlas handles the full spectrum of EDI activity your team deals with every day:

- EDI 834 enrollment software — Enrollment
- EDI 837 claims processing software — Claims Processing
- EDI 835 — Remittance Advice
- EDI 270/271 — Eligibility Inquiries
- EDI 276/277 — Claim Status
- EDI 820 — Premium Payments

HIPAAtlas

Who It's For

Built for Teams Running Healthcare Operations

- Health Plans & Payers
- Third-Party Administrators (TPAs)
- Managed Care Organizations
- Revenue Cycle Teams
- Healthcare IT Teams

If your organization touches EDI, HipaaAtlas is for you.

HIPAAtlas

Value Proposition

There is no shortage of EDI tools.

But here is why healthcare organizations choose HipaaAtlas:

- AI-powered dashboards that actually make sense of your data
- Real-time and batch processing in a single platform
- Faster issue resolution before problems escalate
- Compliance and reporting that does not require a team of specialists
- One platform to replace the patchwork of tools slowing you down
